江西水利電力大學
Jiangxi University of Water Resources and Electric Power

2026 AUTUMN PROSPECTUS FOR INTERNATIONAL STUDENTS

About university

Jiangxi University of Water Resources and Electric Power (JUWP), founded in 1958, is a public university located in Nanchang, capital of Jiangxi Province in the east central of China. JUWP covers a land area of 1.30 million square meters and owns Yaohu Campus and Pengjiaqiao Campus. With its beautiful scenery, pleasant environment, excellent educational and teaching resources, JUWP is also the first campus-based provincial water conservancy scenic spot in China.

JUWP specialises in multidisciplinary education of engineering, management, science, agriculture, liberal arts, economics, fine arts etc. and has distinctive characteristics in the discipline of water conservancy and electric power. With 20,464 full-time students, including 1,293 graduate students and dozens of international students, and more than 1,600 staff members including over 100 national and provincial level talents, JUWP proudly offers 57 undergraduate programmes and 17 postgraduate programmes which are highly recognized by students and employers, among which, The university has appointed Nobel laureate Eric S. Maskin as an honorary professor, and 4 scholars have been included in the 2024 "World's Top 2% Scientists List".

JUWP has established close partnerships with a dozen renowned overseas institutions in countries including the United Kingdom, United States, Hungary, South Korea, and Japan, and launched two Sino-foreign cooperative undergraduate education programs: Civil Engineering (China-Netherlands) and Electrical Engineering and Automation (China-South Korea), which integrate high-quality resources from both sides to

cultivate talent jointly. Our international environment has attracted excellent foreign experts and faculty members, and a group of undergraduate and graduate students from countries along the Belt and Road.

Overview

JUWP provides both undergraduate and postgraduate programmes for international students in fall 2026 (refer to Enrollment Programmes). The duration for postgraduate programmes is 3 years, and that for undergraduate programmes is 4 years. Students who successfully complete all the credits, dissertation and pass thesis defense will be conferred with Graduation Certificate and Degree. The mode of study is full-time.
